

NSYBA 2011 SUMMER BASEBALL SCHEDULE

REVISED:
Sunday, August 21, 3:30 PM

HOW TO READ THIS SCHEDULE AND NOTES ON THE SEASON:

1. Teams are designated by codes. You'll find the key to the codes on the right side of each page.
2. You can get the exact location of NSYBA diamonds plus Google and MapQuest directions on the "www.nsyba.org" website. Click on "ballpark maps" link in the green navigation bar towards the top.
3. The first column gives you the diamond name and the team that calls it home.
4. The first pitch times in the second column refer to MONDAY through FRIDAY only and are frequently different from weekend first pitch times.
5. The first pitch times in the eighth column refer to SATURDAY only and are frequently different from first pitch times for other days.
6. The first pitch times in the tenth column refer to SUNDAY only and are frequently different from first pitch times for other days.
7. As an aid to planning, gray shaded game/practice slots are unavailable to NSYBA.
8. GAMES are noted this way: "XX @ YY". The first listed team is the "away" team. It bats first and takes the first-base dugout. The last listed team is the "home" team. It bats last, takes the third-base dugout and is responsible for bringing the umpire and the game balls. Sometimes a team will play a "home-away" game. This is to balance out the umpiring expense between the leagues.
9. Double-headers will consist of two games of five innings each or a two-hour time limit, unless otherwise agreed by the managers concerned.
10. The schedule is inherently unbalanced, so rainouts will not be made up.
11. The schedule is put together as we go along, roughly every two weeks. This is so managers can provide the best possible season for their players.
12. Each page of this schedule is two weeks. The page number is noted in the upper left corner of each page. The revision timestamp is in the upper right corner.
